

THE Bloomfield Record

A WEEKLY JOURNAL.

WILLIAM HOLIN, Editor and Proprietor.

Office 29 Broad Street.

FRIDAY, MAY 15, 1896.

The Republican Party and Major McKinley.

Through the medium of The American Agriculturist, the farmers of the middle and Eastern States are being polled to ascertain their views and preferences on the Presidential question and that of tariff and finance. From the postal cards already sent in McKinley has 379, Allison 122, Harrison 18, Reed 12. The Democratic preferences give Hill 106, Cleveland 57, Patterson 44, Whitney 41. The vote is 4 to 1 for restoring the Republican protective policy, and 20 to 1 for reciprocity. The single gold standard is opposed 4 to 1. International bimetalism is favored by the farmers 2 to 1. Free coinage of American silver at the ratio of 16 to 1 is opposed 2 to 1.

From those and other indications it would seem certain that if Major McKinley should receive the Republican nomination, and the platform is made to embody American principles and ideas in regard to both the tariff and financial questions, there can be no doubt of his election, whatever the Democratic party may do or can do.

From reading the editorials and news of political events—the skirmishing that precedes the battle, evidence is clear that a determined effort is being made by certain leaders in both parties to carry their respective conventions, and make the money question a supreme issue, forcing upon the American people the un-American British gold standard. The Democratic administration is committed to this, and the split in that party is so evident that it is likely that the result at Chicago in July next will be a repetition of what occurred in the campaign of 1860, the complete rupture of Democracy on sectional lines. This seems now to be inevitable.

Anticipating such a situation the patriotism and conservative wisdom of the Republican party in the National Convention at St. Louis next month will be taxed to the utmost. Already, it would seem, Major McKinley has been indicated by the Republican hosts as their standard bearer. "McKinleyism" stands today as Republicanism making its final appeal to the patriotism of the country. As Major McKinley went to the front in the Civil War and faced treason on the battlefield, while gold was nowhere seen or offered to save the nation, so today in the attack that is being made upon his candidacy here in New York, because he will not come out and pledge himself to Wall Street as a "goldbug" he is, forsooth, a coward, a "straddlebug." Surely he would be worse than that, a fool as well as a dupe, to declare war upon the friends of silver in this battle of money-standards that is being waged.

If defeated in the Convention, McKinley will go down honorably, with the wreck of the great party that can only be saved from destruction in this crisis of its career by turning a deaf ear to the sirens that are luring it on to treacherous rocks.

As an instance of the corrupt gold-olity that prostitutes itself to those who seek to rule or wreck the Republican party, read the following from a metropolitan daily of this morning: "Gold can win if it puts up a resolute fight. There is every evidence that it will, and The Morning Advertiser reiterates what it said a month ago, that McKinley's silence in view of the unsound money plank of his home State precludes gold from selecting him as its champion."

Glen Ridge Sidewalks.

Ordinance No. 12, relating to the construction of sidewalks within the borough has just been posted. It provides that all sidewalks laid shall be at least four feet wide of blue-stone properly laid in sand. Such walks are ordered to be laid at the expense of the abutting land owners. The owners may lay such walks as they wish, and upon failure of doing so within thirty days after notice, the committee on streets shall proceed to construct such walks at the cost of the owner or owners. The ordinance takes effect May 25th.

Memorial Day.

The arrangements for the observance of Memorial Day, Saturday, the 30th inst., have been essentially completed by the committee in charge. Most of the soldiers of the Rebellion have now reached an age when a public parade, such as has been usual in former years, is impracticable. The members of W. S. Pierson Post will, therefore, proceed informally, starting at 9 o'clock A. M. from the Post quarters on Glenwood Avenue to the cemetery and quietly decorate the graves of deceased comrades there interred. In the evening at 8 o'clock there will be public exercises in Central Hall. These will consist of an address by Hon. John Y. Foster of Newark. With this address patriotic or other appropriate pieces will be given by a band of fifteen pieces, and selections from the numerous songs or lyrics made familiar in the field and elsewhere during the war, will be rendered by a double quartette.

The long recognized position of Mr. Foster as a cultured and eloquent speaker amply assures the good people of Bloomfield that the occasion will prove well worthy of their kindly patronage. The other parts in the exercises will add up to a high order of excellence, the utmost seating capacity will be provided in the Hall. The attendance and participation of the Woman's Relief Corps, of Wheeler Post from Montclair, and of Bartlett Post from Caldwell, in the exercises of devotion and evening, is expected. All officers of other Posts residing in the vicinity are cordially invited to be present.

The Salvation Army.

The ruffianly scenes that are nightly enacted at the Salvation Army meetings in the Centre are a disgrace to the town of Bloomfield. Night after night their meetings, whether held in the open air or W. C. T. U. Hall, have been interrupted and in a measure broken up by a gang of hoodlums who make night hideous with their yells and throw mud and stones at the defenceless young women who congregate at the meetings. This seems to be aided and abetted by the police, who, we aver, could be put to a much better use than encouraging the puerile element of this town to deeds of disorder. Whether the Salvation Army is a source of good or not; whether or not their methods are a trifle incompatible with the ideas of this old town, one thing is certain—they do no harm, are striving to do good, and are entitled to such protection as would be accorded the religious meetings of any other denomination of Christian workers. We respectfully call the attention of the Bloomfield authorities to this matter.

Abuses of Crop Reports.

The agricultural department of the government now boasts of a very perfect organization for obtaining reports upon the condition of the crops, cereals in store, etc. Agencies have been established in most of the counties, so that any change in the crop prospect throughout the entire country could be quite accurately reported to Washington in a few hours. Are the farmers benefited by this splendid system of reporting? Is it not possible that it may do them more harm than good? Who uses these reports to the greatest advantage? Not the farmer, but the grain speculator. Dealers in options buy or bear the markets upon the strength of these reports. The agricultural department was intended to benefit the farmers, but the initial use of these reports deceives them rather than benefits them. Would it not be wise to have a commission investigate this matter?

Complaints are made of the darkness of many streets, caused by shutting off the gas before the electric lights can be placed. The darkness in State Street is an example of Father Nardelli's veto of vandalistic tree trimming to property controlled by him, and he is right in opposing it. The law should have gone forth everywhere from the start:

"Litheman, spare that tree. Tough not a single bough." Of what use is it to spend money planting and caring for trees, even to the extent of spraying them to kill the insects, if those along the streets are to be destroyed for the sake of having electric lights? Better go back to gas than have both beauty and utility sacrificed in this manner.

A vigorous campaign is now being conducted in Delaware to elect a legislature that will favor the adoption of the single tax. According to this system it is proposed to exempt all the products of labor of whatever form from taxation and to raise all the revenues for the general, state and municipal governments wholly upon land values, irrespective of improvements. We are promised an interesting article upon the justice and practicability of this method of raising public revenues in our next issue.

Italian Immigration.

Italian immigration to the United States has very much increased since the defeat of King Humbert's armies in Africa. Western Europe is also feeling this exodus. Train loads of Italians are daily going to and through Paris. The original purpose of Italian colonization in Africa was to furnish an outlet for the surplus peasant population, which is now compelled to find a home in North or South America because the mother country cannot or will not find land for them to cultivate. The prospect of further conscription to wage unjust war against King Menelik and his dervish allies also stimulates this exodus. Continent grabbing under the guise of an Abyssinian protectorate is clearly seen to directly affect our immigration problem. "The injury of one is the concern of all."

County Tax Levy.

The Board of Freeholders met Wednesday morning to make up the tax levy and to receive the annual reports of the various committees and institutions.

The Board passed the tax levy for the ensuing year, as fixed by the finance committee. The only change made was the item relating to the amount to be placed in the levy to provide for the interest and sinking fund of the park bonds already issued. This item, as shown by County Counsel Munn, will amount to \$8,533 less than was estimated by the finance committee last week.

The committee also erred in figuring that the increase over last year in the current expenses, debt and interest, and public works accounts, will exceed last year's budget by upwards of \$102,000. In making up the totals two items were inadvertently left out. These were appropriations of \$32,700 for improvements to public roads and \$22,000 to the accounts of the jail and penitentiary. The aforesaid appropriations were added to the tax levy of 1895, after the printed statement was issued.

The actual amount, therefore, of last year's budget was \$292,882, and the actual increase this year will be but \$36,398.03. This includes the extraordinary items of \$85,000 to the special account for buildings and grounds for the County Hospital for the insane, and \$96,500 to provide for interest and sinking fund on the \$1,500,000 park bonds that are to be issued shortly.

Essex H. & L. Co.

The annual nominating meeting of Essex Hook and Ladder Company, of Bloomfield, was held Tuesday night. The meeting was an exciting one, and for the first time in years there were two candidates for president, T. Howell Johnson, former chief engineer of the department, and charter member resigned. The following are the nominees to be chosen the second Tuesday in June: President, Seymour P. Gilbert, J. Howard Hardeste; vice-president, Lewis Hawkins; secretary, J. Milton Unangst; treasurer, Chas. H. Johnson; assistant foreman, Wm. L. Johnson; assistant foreman, Chas. A. Keyler; clerk, Wm. H. Davis; trustees, Edgar D. Ackerman, Frank G. Tower, Nicholas Van Sant, Alfred M. Stager, Jules Magory. Only four of the latter are to be elected. Robert M. Aylsworth, pastor of the Presbyterian Church, will continue another year as chaplain. The thirteenth anniversary of the company will occur on Tuesday June 9th, and the following committee was appointed to arrange for the banquet: Edgar D. Ackerman, Wm. L. Johnson, J. Howard Hardeste, Chas. H. Johnson, Frank Unangst. In addition to the active and honorary members, the assistant chief engineers, foreman and assistant foreman of each company, and the members of the Township Committee, are to be invited.

Base Ball.

The "Archie of Glen Ridge" have organized for the season with unusually bright prospects. They have secured as their battery Kne and Gifford of Newark, who are well known for their first class work. The substitute battery, Block and Seaburn, are also first class in their work, and with these the team will never want for good pitching and general battery work. The remainder of the team is made up of the following well known amateur players: Sidney Lewis, who is Captain of the team, Len Becher, Bert Butlerfield, Aroh Hart, Jack Newell, Bert Walker, Gus Rappach and Robert Zabinski. The team will play on the Glen Ridge Oval, which grounds have been tried up during the week. The team the Archie have engagements to play are all first class amateur teams of the same class as the Glen Ridge first foot ball team usually plays foot ball with. The team is under the management of Goddard C. Sedbert, the well known foot ball captain and manager. The Archie will play their opening game with the Brookdale A. C. on Glen Ridge Oval to-morrow at 3.30 P. M.

Treschow's Patent Bureau.

Patents granted to Jerseymen for the week ending May 5, 1896, as recorded publicly by the Official Gazette of Patents, reported for this paper by Aug. M. Treschow, patent solicitor, 23 Clinton St., Newark, N. J., and 147 E. 11th St., Paterson, N. J. Indicator for bowling alleys, F. Becker, North Plainfield; Hand stamp, F. Giroud, Newark; Sewing machine, C. Skinner, Newark; Shirt supporter, K. Amy, Cranford; Prying tool, J. J. Neelot, Newark; Gas consumer and fuel economizer, J. Fries, Trenton; Music box, P. Hodech, Union; Hotting device for lock, J. H. Sergeant, Westfield; Speed indicator, J. White, Jersey City; Bicycle attachment, A. Winner, Phillips Landing; Photographic bugler, P. Fleming & G. Gennet, Elizabeth; Cipher box cover, (design) N. Witch, Jersey City.

Empire Steam Carpet Cleaning Works. The subscribers have to inform the public that with the greater facilities he is prepared to clean carpets with dispatch. Upon notice, carpets will be taken and cleaned the same day if desired, and satisfaction guaranteed. Your patronage is solicited. Address, D. Donohue, Jr., No. 47, 3rd St., Newark, Montclair, N. J.

Premature baldness may be prevented and the hair made to grow on heads already bald, by the use of Hall's Vegetable Sulfur Hair Renewer.

Spring Medicine

Your blood in Spring is almost certain to be full of impurities—the accumulation of the winter months. Bad ventilation of sleeping rooms, impure air in dwellings, factories and shops, over-eating, heavy, improper foods, failure of the kidneys and liver properly to do extra work thus thrust upon them, are the prime causes of this condition. It is of the utmost importance that you

Purify Your Blood

Now, as when warmer weather comes and the tonic effect of cold bracing air is gone, your weak, thin, impure blood will not furnish necessary strength. That tired feeling, loss of appetite, will open the way for serious disease, ruined health, or breaking out of humors and impurities. To make pure, rich, red blood Hood's Sarsaparilla stands unequalled. Thousands testify to its merits. Millions take it with their Spring Medicine. Get Hood's, because

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. Prepared only by C. I. Hood & Co., Lowell, Mass. Hood's Pills, with Hood's Sarsaparilla.
